Re: Letter of Recommendation for Worksite Resources

To Whom It May Concern:

It is with great pleasure I present this letter of recommendation on behalf of Worksite Resources. Worksite Resources worked with the Albemarle Commission to put together an affordable and comprehensive employer paid and voluntary benefit package for our employees.

Worksite was thorough in providing detailed information to management, as well as meeting individually with our staff members in order to educate them on the benefits available and what voluntary benefits are best for the employee; which in my experience is not always the case when employees elect benefits.

What impresses me most about Worksite Resources is that Steve Worgan and Worksite's entire organization has been fantastic to work with, and I particularly respect the ethics in which they work and provide insight into the programs and services they offer. As is their model of business, they go above and beyond to make sure the questions and concerns of the Commission's employees are answered and resolved.

As an executive director and former city manager, I have had the opportunity to work with many brokers, and by far, Worksite Resources is the finest I have had the pleasure in which to work during my 15+ years in management.

If you have any questions or would like to ask me any questions about working with Worksite Resources, as always, please do not hesitate to contact me. I am delighted with the service, follow-up, and response myself and my employees have received from Worksite Resources. Your organization would benefit greatly by working with them.

Very truly yours,

Cathy Davison, ICMA-CM
Executive Director
